

ART021 Announces the Exhibitor List for its 2022 Edition

ART021 Shanghai Contemporary Art Fair 10th anniversary edition will be held at Shanghai Exhibition Center from November 10 to 13. This year, the ART021 team will promote the art fair with 134 premier galleries from 19 countries and 36 cities.

With a mission of “Originating Locally, Serving Globally”. ART021 has been shouldering its social responsibilities with an open, explorative, and innovative perspective, also provides a global communication and trading platform for galleries, museums, art institutions, and collectors domestic and overseas. As one of the leading projects of the 4th Shanghai International Artwork Trade Week, ART021 will be the prelude of “Global Art in Shanghai Time”, bringing nearly 10,000 contemporary art masterpieces, accelerating the establishment of art industry scale, consolidating Shanghai as an international art trading center, and developing the “Shanghai Culture” brand.

2022 ART021 showcases an “eclectic and diverse” layout. The MAIN GALLERIES section presents 114 high quality galleries specialising in twenty-first century contemporary art, with 89 of the world's leading galleries returning and 25 top galleries exhibiting for the first time. Numerous world’s blue-chip galleries provide outstanding masterpieces for Asian art lovers and collectors. Some newcomers with high and strict standard will also introduce emerging artists’ works. ART021 insists on supporting local art industry, gathering the core contemporary artistic power in China. We are honored to bring WALLACE CHAN and CINDY CHAO The Art Jewelry as the top level of Chinese jewelry art, leading the art fair’s jewelry design art style with an aesthetic vision that transcends national borders. Premium design and art galleries bring precious design works, showing the perceptiveness of the

design field. The trend points to youth culture, with many of the art industry's leading urban art galleries coming together at 2022 ART021, and illustrates the upward momentum for art-enriched environment.

APPROACH section features 20 galleries, and the 11 emerging exhibitors are from China, Korea, Greece, France, Portugal, Germany, and Japan, meaning to support young galleries across the world.

BEYOND transcends the spatial limitation of traditional art-fair booths, which introduces 7 excellent public projects. In addition, PLATFORM online units, the participation of Special Projects, auctions, and non-profit institutions has opened up new possibilities for creating an artistic atmosphere.

Art without boundaries, a new decade resumes. 2022 ART021 once again joins hands with PORSCHE CHINA, DIOR, and Hennessy to represent a vibrant art field for art lovers, practice corporate social responsibility, and cultivate more art talents. LOEWE, Ruinart, CHA LING and other new partners have joined us to promote the diversified development of art, and write a contemporary chapter of pan-art lifestyle landscape. We would also like to thank Hermès and Swissline for their continued support. Let's celebrate the art fair with the whole city of Shanghai!
